

Phan Cao Thanh Vinh (Henry)

Software Developer

henry.phan2601@gmail.com | 403-837-5208 | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

A driven and detail-oriented Software Developer with experience developing full-stack applications, focusing on responsive user interfaces and real world functionality. Proficient in React, Node.js and TypeScript with hands-on experience in API integration and authentication systems. Familiar with modern development workflows and cloud-based tools, and quick to adapt to new technologies. Committed to writing clean, scalable code and delivering efficient user-centered solutions

PROJECTS

FitMonkey – Fitness & Goal Tracking Web App

March 2026 – April 2026

- Built a responsive health and fitness tracking web app to help users monitor goals and daily activities
- Designed clean UI/UX flows to improve user engagement and usability
- Implemented task and progress tracking features for personal fitness goals
- Focused on scalable component structure and modern frontend practices

Tools: TypeScript, React, Tailwind CSS, Firebase, Supabase, Restful API

Knowly – Learning Management Mobile App

Feb 2026 – March 2026

- Developed a structured learning app with modular architecture
- Built reusable UI components and implemented theme support
- Integrated authentication logic and organized scalable frontend structure
- Managed project structure with clear separation of concerns

Tools: TypeScript, React, CSS, Supabase

Library Management System

Nov 2025 – Dec 2025

- Designed and implemented a relational database structure in Java to manage 50+ book records and 20+ user accounts
- Developed core database operations to support efficient information retrieval
- Integrated database logic with system features to ensure consistent data handling

Tools: Java, MySQL

Task Tracker Evolvra – User Interface

June 2025 – July 2025

- Designed a goal-tracking application interface using Figma to create clear user flows and visual consistency
- Developed a task management concept that allows users to monitor and track personal goals efficiently
- Focused on usability and layout structure to improve user interaction and clarity

Tools: Figma, Canva

VOLUNTEER EXPERIENCE

Student Volunteer at SAIT

April 2025 – Present

- Assisted in organizing student activities and community programs, ensuring tasks were completed accurately and on schedule
- Communicated effectively with student, staff and visitors to provide information and support

EDUCATION

LANGUAGES & SKILLS

Programming Languages: HTML, CSS, JavaScript, React, Tailwind, Java

Database: MySQL, Oracle, Supabase, Firebase

Libraries & Frameworks: React, Tailwind, Zod, Node.js, Next.js

Cloud & DevOps: Vercel

Tools & Platforms: GitHub, Git, Figma

Microsoft Office: Teams, Outlook, Word, Excel, Powerpoint

Soft skills: Communication, Teamwork, Critical Thinking, Time Management, Problem Solving
